

Atos statement on REACH

Atos supports the objectives of EU regulation n° 1907/2006/EC REACH for **R**egistration, **E**valuation, **A**uthorization and restriction of **C**hemicals, aimed to improve the protection of human health and the environment against the risk of chemicals.

Atos is not a manufacturer of chemicals and does not manufacture articles with intended release of substances.

However, appropriate resources have been assigned to analyze the compliance with the Annex XIV, Annex XVII and the SVHC (Substance of Very High Concern) Candidate List, published in accordance with article 59 (<https://echa.europa.eu/candidate-list-table>).

On this basis, Atos hereby informs customers about the presence in its products of substances in a quantity exceeding the limits allowed in the REACH Candidate List. Moreover, Atos will make all reasonable efforts to ensure appropriate and timely handling of updates concerning REACH.

The Candidate List published by the European Chemicals Agency (ECHA) was updated on January 24th, 2024 and now contains 240 Substances of Very High Concerns (SVHC).

To date, relevant has been the LEAD inclusion in the Candidate List (CAS 7439-92-1): in fact, LEAD is a substance commonly used in copper, steel and aluminum alloys.

We inform you that the products within the following categories of Atos catalog contain LEAD in a concentration above 0,1% w/w:

- Proportional valves & cartridges
- On-off valves & cartridges
- Safety Valves
- Ex-proof & Stainless-steel valves
- Cylinders & Servocylinders
- Hydraulic pumps
- Systems, Manifolds & Accessories

In case of future presence of other Candidate List substances, they will be communicated to the customers according to REACH dispositions. Together with the above, this intends to meet our communication requirements according Article 33 of REACH regulation.

If you have any questions related to product compliance, please contact Atos Technical office.
