

# **Ex-proof solenoid directional valves**

On-off, direct, spool type - MA certification

On-off directional valves equipped with explosion-proof solenoids certified according to **MA** Chinese mining certification, protection mode:

Ex d I Mb for surface, tunnel or mine plants

The solenoids are provided with cable glands (horizontally oriented) for cable entrance and internal terminal board for power supply coils connections.

The solenoid case classified **Ex d** is designed to contain the possible explosion which could be caused by the presence of the gas mixture inside the housing, thus avoiding dangerous propagation in the external environment.

They are also designed to limit the external temperature according to the certified class to avoid the self ignition of the explosive mixture present in the environment.

 Size: 06 - ISO 4401
 Size: 10 - ISO 4401

 Max flow: 80 l/min
 Max flow: 120 l/min

 Max pressure: 350 bar
 Max pressure: 315 bar

## 1 MODEL CODE

#### 2 CONFIGURATIONS and SPOOLS (representation according to ISO 1219-1)

**DHA** spools **1, 4, 5** and **58** are also available as **1/1, 4/8, 5/1** and **58/1**. They are properly shaped to reduce water-hammer shocks during the swiching **DKA** spool **1** is also available as **1/1.** It is properly shaped to reduce water-hammer shocks during the swiching.
