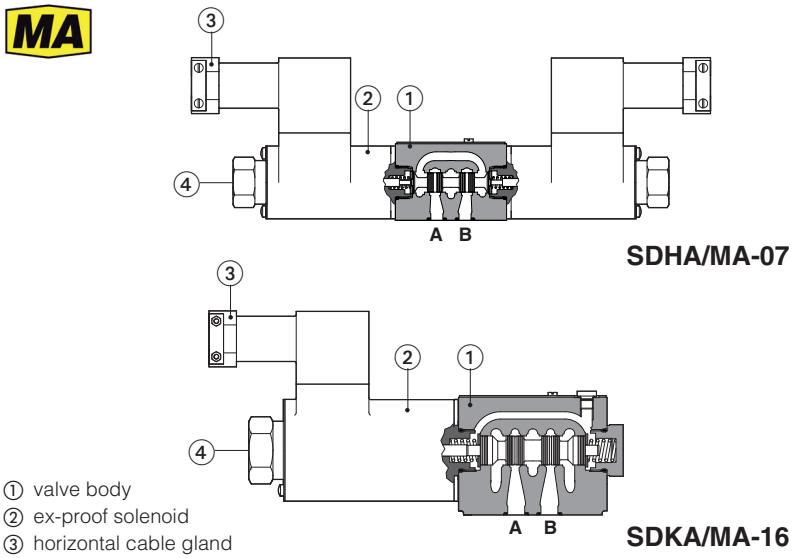
Ex-proof solenoid directional valves

on-off, direct, spool type - **MA certification**



① valve body
② ex-proof solenoid
③ horizontal cable gland
④ manual override

SDHA/MA, SDKA/MA

On-off, spool type directional valves equipped with explosion-proof solenoids certified according to **MA** Chinese mining certification, protection mode:

Ex d I Mb for surface, tunnel or mine plants

The solenoids are provided with cable glands (horizontally oriented) for cable entrance and internal terminal board for power supply coils connections.

The solenoid case classified **Ex d** is designed to contain the possible explosion which could be caused by the presence of the gas mixture inside the housing, thus avoiding dangerous propagation in the external environment.

They are also designed to limit the external temperature according to the certified class to avoid the self ignition of the explosive mixture present in the environment.

DHA/MA:	**DKA/MA**:
